# READY, SET, *Bowl*

## Strike Central - Get a leg up on earning a strike

Nine is Fine – (AKA, No Tap 9 Pin) Each bowler will automatically receive a strike by knocking down nine pins during the first turn.

Eight is Great – (AKA, No Tap 8 Pin) Each bowler will automatically receive a strike by knocking down eight pins during the first turn.

3 for Free – (AKA, 3-6-9) Fast pace game that credits bowlers with strikes in the 3rd, 6th and 9th frames. After a bowler completes their first 2 frames, the scoring system will record a strike for the 3rd frame and skip to the 4th frame. The same holds true for the 6th and 9th frames.

## Tag Team

300 GameShare – (AKA, Scotch Doubles) Pair up in doubles for this team bowling format. The two bowlers take turns to form one game. If player 1 knocks down nine pins (or less) on the first ball, player 2 gets to shoot for the spare. If player 1 rolls a strike, in the next frame player 2 rolls first.

## Department of the Month

Who's the best department - HR? Marketing? Finance? This game will help settle the score - at least bowling wise! Team Building Bowling – Assign each department a lane, then the scoring system will capture all scores bowled. At the end of each game, you can determine the team, as well as the individual, with the best (or lowest) scores.

## Just plain Fun...

Strikingly Colorful – A pin of a different color, (usually red), will be substituted for a regular pin in the rack. Whenever the red pin sets up as the headpin, which is the front pin closest to the bowler, and the bowler rolls a strike, that person will receive a prize. To simplify the game, depending on your skill level, a prize can be handed out for simply hitting the red pin.

*Questions? Please ask your lane captain.*
